US - New Frontpage

**User Story Name: US-New Frontpage**

Associated User Stories: → As an administrator, I want to have Load more button on the front page, so that I can view all categories of the site when I clicked this button.

Updated Date: Oct 23, 2018

Description: As a marketer, I want to add the Front page to show all categories (that sorted based on the alphabet), so that I can pick Category first for my filter.

Main flow

How to go to this screen: The user clicked signed in successfully with Marketer/ Content Team Leader Role
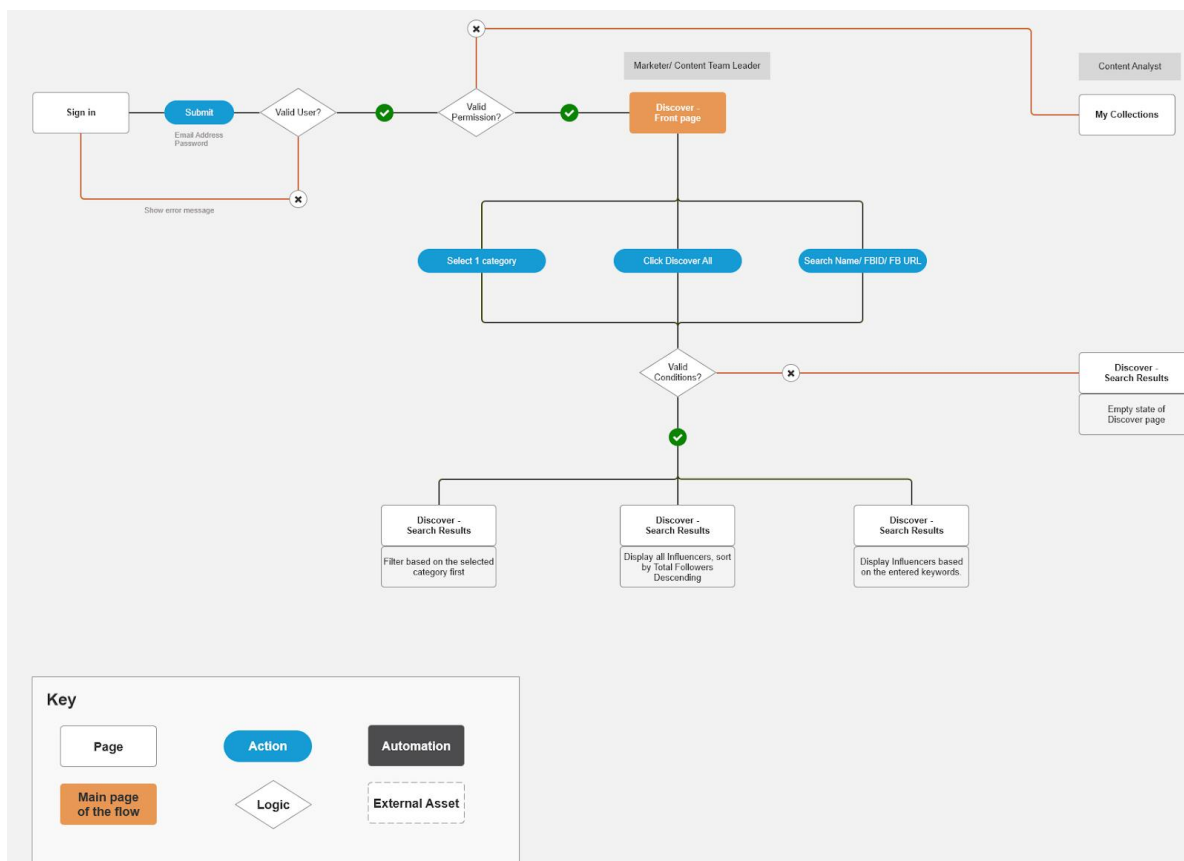

Business rules

N/A

Acceptance Criteria

1. I can see the **sidebar** that **Discover page is the selected headline.**
2. I can see the **search bar** on the header
3. I can **view category list** that sorted by alphabet on the front page as default (load 12 items per page)
4. The font size, font style, padding, width, height, spacing and alignment of the fields must be consistent as design version. (view Zeplin)
5. The **name of the category** can be shown max in 2 rows.
6. The height of card in the same row will be aligned based on the highest card on this row.
7. I can see **Load more button** at the bottom of the page.
8. If I click on the Load more button, the system will show more categories of the next page.
9. When I hovered on the image/ name of the category, the category name will change color as design version. (view Zeplin)
10. If I click on the image/ name of the category, the system will select the category as a filter condition and switch to the search results page.
11. If the category has no added image, the system will show a default image.
12. If I enter keywords on the search bar and click the Search button, the system will switch to Search Results page.
13. If I click on Discover All Influencers button, the system will switch to Discover page and show all results. (with pagination and sort by Total Followers descending)

8	Load more	As a pagination component	Button	Button	N/A	N/A

Exception

In case, the name of category is over 2 rows, the system will show max in 2 rows and …

In case, no. of categories < 12 items (1 page), the system will not show Load more button.

In case, the user reached to the last page, the system will show text instead of the Load more button: **'You reached the end of category list!'**
